

Texas (ERCOT): flexibility priced by markets

- Real-time price (15-min settlement)
- Ancillary services as Load Resource / CLR
- 4CP transmission-charge avoidance
- SB 6: curtailment capability, new loads ≥ 75 MW

Abu Dhabi: flexibility procured by a single buyer

- No wholesale or ancillary-service market
- Contracted DR with capacity payment
- ADDC tariffs: flat 20 or 23.1 fils/kWh
- Industrial >1 MW: summer time-of-use

Digitized DR layer (either route): signal → response → committed baseline → verified settlement
